

Statement of Compliance

At Copylab, we place great value in our reputation for ethical behaviour in all areas, including in how we conduct our financial affairs.

We do not tolerate tax evasion in any form, whether undertaken or facilitated by a client, any of our staff, or third-party vendors we deal with.

As part of our commitment to preventing tax evasion, we provide training on financial probity to all our staff, with a particular focus on our commercial and senior management teams.

We require all our staff to behave with high standards of transparency and honesty, and we will take disciplinary action when those standards are not met.
